EXPERIENCE

INTERNSHIP

Automation Testing Intern – StarAgile | Remote | (Jun 2025 – Dec 2025)

- Gained hands-on experience in **automation testing** through structured mentorship and real-time practice.
- Applied Java-based **automation using** Selenium WebDriver and TestNG, and practiced Python automation separately using pytest.
- Performed functional, regression, and API testing using Cypress, Postman, RestAssured, Maven, and Git.
- Designed, executed, and maintained **test cases and test scripts**, and logged defects with proper severity and priority following the defect lifecycle.
- Validated **REST APIs** using Postman and RestAssured, including request/response verification and status code checks

Medi Assist Healthcare Services Pvt. Ltd | Bangalore | (Apr 2022 – May 2025)
| Quality Analyst | Executive |

- Reviewed insurance policies and verified entries across systems for **accuracy and consistency**.
- Utilized complex **SQL joins** to validate data integrity for insurance policies, ensuring **99.9% accuracy** in claim entries.
- Documented **defects** and collaborated with teams for **resolutions**.

| Sagility India Ltd | Bangalore | (Jan 2022 – Feb 2022)
| Trainee Process Consultant |

- Performed operational and data validation tasks with accuracy.

| Reliance SMSL Limited – Jewels Format | Bangalore | (Nov 2018 – Dec 2021)
| Junior Associate |

- Handled customer orders, billing, daily stock management & returns processes.

| Reliance SMSL Limited – Trends Format | Bangalore | (Aug 2018 – Oct 2018)
| Junior Associate |

- Supported billing and store operational activities.

EDUCATION

Bachelor of Computer Application – Karnataka University Dharwad | Percentage: 68% | (Jun 2015 – Jul 2018)

CERTIFICATIONS

Java, Python, SQL, Docker : StarAgile, Powered by **IBM Developer Skills Network**.

PROJECTS [GitHub: https://github.com/nagarajnaika25/Capstone_Project_2025.git]

API Testing – Contact List Application - Tools: Postman, RestAssured, Chai, Java, JSON.

- Developed **30+ automated API scripts** using RestAssured, achieving **100% test coverage** for critical CRUD operations.
- Designed and executed API test cases; implemented Chai assertions and RestAssured scripts.
- Validated **HTTP status codes, response schema, headers, and payload integrity**.
- Designed and executed **positive, negative, and boundary API test cases** for CRUD operations.

HRM Domain Automation - Tools: Selenium WebDriver, Cypress, Java, TestNG, Cucumber, Maven, POM

- Automated end-to-end functional test scenarios using **Selenium and Cypress**
- Implemented **Page Object Model (POM)** for maintainable test automation & Executed regression test suites using TestNG.
- Automated **50+ end-to-end scenarios**, reducing manual regression testing time by **35%**.
- Handled **dynamic web elements** using waits and locators.

E-Commerce Automation – Nixonex - Tools: Selenium WebDriver, Java, Cucumber, TestNG, Maven

- Automated **user flows** including login, search, cart, and checkout.
- Performed **functional and regression testing** & Identified and reported **UI and functional defects**.
- Developed a **data-driven testing** suite to validate the entire user journey—from registration and product search to secure checkout.
